

MedSEVa

Cultivating Sustainable Economies in the Mediterranean through Valorisation of Bushland Ecosystems

MedSEVa enhances professional opportunities for higher education students by fostering a holistic understanding of Mediterranean bushland valorisation. It also revives and preserves traditional ecological knowledge while integrating underutilized plant species into sustainable agriculture and economic models.

MAIN TARGET GROUP:

Higher education students in Botany, Agriculture, Agronomy, Ecology, Gastronomy, Pharmacy, Landscape Architecture, and Geography.

INDIRECT TARGET GROUP:

Landowners, residents of low-density Mediterranean areas, local community groups, agricultural cooperatives, and municipalities.

PRODUCTS & OUTCOMES

MedSEVa HANDBOOK:

A guide promoting sustainable Mediterranean economies by valuing bushland ecosystems, combining scientific research, traditional knowledge, and practical insights for conservation and sustainable use.

MedSEVa STORYTELLING RESOURCES:

A multimedia collection of videos, podcasts, and interviews showcasing successful practices and concepts, blending science with traditional knowledge to highlight sustainability.

MedSEVa HUB:

An online platform centralizing MedSEVa's educational materials, research, and community insights to foster collaboration and knowledge-sharing.

DURATION: 1st December 2024 - 30th November 2026
